## CNAPPC @ UIA WORLD CONGRESS OF ARCHITECTS. COPENHAGEN 2023

**03 JULY**

**INFORMAL TALKS / 12.00-12.45**

BELLA CENTER / CNAPPC BOOTH

### BORDER AS COMMON GOOD

How architects can address the theme of the encounter/clash between the different realities of the world, realities that demographic, social, climatic, economic dynamics force to mix, in the awareness of generating traumatic, cynical, creative, human ethical processes.

---

**04 JULY**

**INFORMAL TALKS / 12.00-12.45**

BELLA CENTER / CNAPPC BOOTH

### BUILT ENVIRONMENT EDUCATIONAL AS COMMON GOOD

How architects, aware that architecture is always public, can contribute to increasing citizens' awareness of the role of the quality of the space in which every human being spends their life, too much important role to leave it to the "experts" alone. The school has a specific task in the construction of all human beings, in providing the codes of understanding of what enriches the quality and gives fullness to our lives.

**05 JULY**

**SIDE EVENT / 10.30-11.45**

BELLA CENTER /

SESSION ROOM NUMBER B3 M7-8

### PROXIMITY IN THE SMALL TOWN OF TOMORROW

The challenges and opportunities related to the design and planning of small urban communities in the coming years. As we continue to experience rapid urbanization, small cities are becoming increasingly important. These communities offer unique opportunities for sustainable development and vibrant social interaction.
